Pedals for Progress, also known as P4P, collects over 11,000 bicycles annually and transfers this material wealth to those more needy. To date, more than 117,000 bicycles have been shipped to developing countries in Latin America, Africa, and the Pacific Islands. In these countries, the bikes are reconditioned by partner agencies and distributed at low cost to poor working adults. These bikes provide them with reliable transportation for commuting to work, transporting produce to market, or accessing health care and other services. Steady employment for these adults is vital to the development and success for these economies.
