GOLF OUTING WILL HAPPEN!

June 6, 1 PM, shotgun start at Copper Hill, so please show up at 11:30. Volunteers are still needed and please get checks from your sponsors.

FOOD PANTRY STILL LOOKING FOR CEREAL

This was a good week for the Food Pantry; but boxed goods, particularly cereal, are still much in demand.

WE'LL MISS YOU MAX. GOD BLESS!

The Club accepted with much regret and much thanks for his service the resignation of Max Berkowitz. We hope he will come back to visit us often. Max participated with perfect attendance for 14 years. Craig Proctor recalled Max's role in the Farmers' Home Administration, where policy was adapted to the needs and income of the buyer. Max, Craig said, was "a good man, a gentleman's gentleman, and we're sorry to see him go."

PROGRAM NEEDED FOR MAY 31 - GUESTS INVITED

May 31 is a "Fifth Wednesday," a time to welcome guests and present interesting programs. Please help by contacting Mick or Catherine with program ideas.

BOB WISE RECEIVES OUTSTANDING MEDICAL EXEC. AWARD

Bob received an Outstanding Medical Executive Award for 2006 from an organization named MD Advantage for his "fundamental interest in health care and a commitment to the enhancement of medical practice."

THANKS FOR GSE WORK, GWEN!

Gwen and Jim ran the Aussies ragged and gave them a great time. They probably think all American Rotarians, or even all Americans, are as energetic as Gwen. Ian Wallace visited McGuire Air Force Base thanks to Jim, and enjoyed an adventure flight down to the Chesapeake piloted by Dick Solner. Mike Morris and Harrie Copeland's family hosted two of the team members. Chris Venditti rented the van Gwen used to run the Aussies ragged.

WELCOME ROTARY SCHOLARSHIP RECIPIENTS

Rotary scholarships were presented last week to five excellent local scholars, who are to be present at today's meeting.

HUNTERDON MEDICAL CENTER WRONGFULLY ACCUSED

The hospital, which has gone out of its way to provide bilingual support, attempted to arrange the transfer of a patient unable to be treated here, to another facility. The hospital was unjustly accused in the media of arranging a deportation.

READINGTON IS EMINENT

Harry Woske contributed a sad dollar for the successful bond issue in Readington Township, which he sees as another move in the direction of property confiscation.

SENIORS ARE WELL SERVED AT HUNTERDON MEDICAL CENTER

Our guest speakers, Linda Bryant, Director, Senior Services at Hunterdon Medical Center and Dr. Shekar Chakravarthi, Medical Director, outlined ways in which the center diag-

noses and treats both early and advanced symptoms of memory loss.

Their facility is called the "The Central Jersey Regional Memory Center."

"If you can remember that," Linda said, "you probably don't need our services."

There are five million Americans with some form of dementia (a symptom of a number of diseases, most commonly Alzheimer's). The largest growing segment of our population is 85 plus. And 50 percent of these people develop some form of dementia.

The boomers are just turning 60, and the aging population is truly growing, so it's important to address these problems.

Mild cognitive impairment, slight memory loss, is amenable to behavioral treatment and physical activity. The center is well aware of this holistic approach to the problem, and provides direction and support. This problem is not only a problem for the aged.

It usually involves a lessening ability to do whatever it is you're used to doing, whether that be normal life chores or a complex profession.

But that assumes a proper diagnoses for early intervention, which not all patients get. Early diagnosis is important since there are a number of effective remedies to slow progression and even some new treatments that can halt it. So the memory Center emphasizes ways of helping people with early impairment.

The Center's assessment program helps people know exactly what problem they have, what causes it, whether it's curable or not, and what to do about it. Much of this is done with sophisticated testing, which is geared to give exact diagnoses in half an hour or an hour. The tests can also be repeated to assess the progression of the problem.

In the future PET scans may give a more physical diagnosis, important because often there are physical causes like mini-strokes.

Education is also important, since the patient and family may not know what they're dealing with. Perhaps half the problems dealt with in Senior Services are instances where patients and families do not understand what is happening in early dementia.

Unfortunately, with advanced Alzheimer's the emphasis changes to caregivers and facilities. The connection with the county's nursing homes is critical.
